

Reference Guide - GarageBand Lessons 4-6

	DESCRIPTION	MENU	KEYBOARD	MOUSE
EXPORTING	Single GB project	Share → Burn song to CD		
	Multiple songs: GB → iTunes	Share → Send song to iTunes		
	iTunes Playlist	File → New Playlist	⌘N	
	Aiff (GB) → MP3	Advanced → Create MP3 version		
	iTunes file type?	File → Get info	⌘I	
SWITCH	Output folder (where your converted file will end up)			Drop-down menu in Switch window.
	Convert	Convert → Convert files	⇧⌘C	Click on icon in lower right corner of window: 

Importing audio files:

MIDI – Save song as a Quicktime movie (✓ at right end of player) and convert file to mp3 in iTunes.

Loops – Note the tempo of any loop you download. Save; do not open. Change tempo of GarageBand project before you drag it in.

Others – Click on file name or link.

⚠ Check copyright restrictions on any audio file you use! Files on the sites linked in Lesson 6 will, at most, need attribution. Two excellent resources for copyright information are <http://www.copyrightbook.net/> and <http://www.benedict.com/Default.aspx>.
